boston november 5 1995 the war in bosnia and herzegovina is an unheard of tragedy before the eyes of the entire world a state is being destroyed and the people population of a nation are suffering the genocide and ethnic cleansing all the principles of humanity morals and international rules have been trampled the question most often asked is how could that happen today when the genocide committed during world war ii is so well known the holocaust and when the international community had the will and the means to protect the republic of bosnia and herzegovina the international community has shown that it is not the enemy of the republic of bosnia and herzegovina and that it accepts this state into its membership when it recognized the republic of bosnia and herzegovina on april 7 1992 with that act the international community stood up against the serbian nationalism which only started to bloody its hands in bosnia and herzegovina so how come that in the fall of 1995 after the innumerable atrocities committed by the serbs revolted the world the international community crossed over to the side of the war criminals giving them 49 percent of bosnia and herzegovina with its dayton peace proposals who was the mastermind who succeeded to change the world opinion and what methods did he use this book answers some of those questions the reading of this book has to be approached with having faith in no one but a common sense besides that from the reader who comprehends what is truly happening in bosnia it is expected that he she spreads the truth the ultimate goal is to

help in the fight against the forces of betrayal and the division of bosnia and herzegovina wishing to arm the bosnian patriots as soon as possible with the knowledge of what is really happening this book is being written in a hurry i still hope that this book will reach bosnians and friends of republic of bosnia and herzegovina all over the world before it is too late and while it is still possible to say no to the division of a member of the united nations

diversity has always been at the heart of bosnia and herzegovina s character even its dual name and physical geography display a particular heterogeneity the medieval bosnian state never enjoyed lasting political and ideological unity as its feudal regional and religious rifts pulled at the country s seams furthermore because of its location and by a quirk of history three major world religious and cultural traditions catholicism islam and orthodoxy became cohabitants in this small balkan country recently the rebirth of its statehood has been exceptionally bloody and its diversity has been shaken even 11 years after the guns were silenced the country is still under the benevolent protection of the international community whose officials are keeping the state building process in perpetual suspense with no final result in sight the a to z of bosnia and herzegovina sheds light on the uncertain situation bosnia and herzegovina faces while providing essential background information this is accomplished through a chronology an introduction a bibliography and more than 300 cross referenced dictionary entries on individual topics spanning bosnia and herzegovina s political economic religious and social system along with short biographies on important figures

bosnia the good is an indictment of the partition of bosnia formalized in 1995 by the dayton accord this unequalled volume is a

plea from one of bosnia herzegovina's most prominent dissidents appealing for bosnia's communities to reject ethnic segregation and restore mutual trust the author argues for the history and reality of a bosnia herzegovina based upon a model of unity in diversity he shows that ethnic and religious cultures co existed in bosnia for centuries and that croatian and serbian leaders determined to enact their own nationalist programs are to be blamed for the conflicts that devastated a nation he points out the decisive moment when the international community accepted the serb croat argument that ancient ethnic hatreds were endemic to bosnia and that ethnic segregation became not only acceptable but desirable he examines the reasons why western liberal democracies have regarded with sympathy the struggles of serbia and croatia for national recognition while viewing bosnia's multicultural society with suspicion bosnia the good confronts the religious dimension of the bosnian dilemmas from the perspective of a bosniak committed to inter religious dialogue the author argues that the only way bosnia will reclaim its unique civilization is more than simple tolerance among serbs croats and bosnians they have to recognize that judaism christianity and islam all share the same deity and it is this common transcendent perspective that should open the door to the acceptance and celebration of religious diversity bosnia is at present divided and shaken to its foundations but the author argues it could become a model for european progress the greatest danger is for bosnia to be declared just another ethnoreligious entity in this case a muslim state ghettoized inside europe if protected and allowed to develop however the author explains how bosnia could find a place in a new european order

emerging from communism in the early 1990s the new state of bosnia and herzegovina was immediately embroiled in devastating ethnonationalist conflict now an international protectorate the choices of its elites may well propel bosnia either to a stable future integrated into an expanding european entity or to a future filled with insecurity conflict and adversity this volume assesses current conditions in bosnia as well as the prospects for stability in a country torn between nationalistic elites on the one hand and the desires of important regional actors for control of bosnia on the other with a fractious international community overseeing the matter friedman controversially denies that the wars of yugoslavia's dissolution are a necessary product of ancient ethnic hatreds contending that bosnia and herzegovina was once the quintessentially multiethnic multireligious community and could be again containing chapters on the country's history economics international relations and politics this book provides social scientists with an accessible overview of contemporary bosnia and herzegovina

bosnia remake is an authoritative account of ethnic cleansing and its partial undoing from the onset of the 1990s bosnian wars up through the present gerard toal and carl dahlman combine a bird s eye view of the entire war from onset to aftermath with a micro level account of three towns that underwent ethnic cleansing and later the return of refugees there have been two major attempts to remake the ethnic geography of bosnia since 1991 in the first instance ascendant ethno nationalist forces tried to eradicate the mixed ethnic geographies of bosnia s towns villages and communities these forces devastated tens of thousands of homes and lives but they failed to destroy bosnia herzegovina as a polity in the second attempt which followed the war the international community in league with bosnian officials endeavored to reverse the demographic and other consequences of this ethnic cleansing while progress has been uneven this latter effort has transformed the ethnic demography of bosnia and moved the nation beyond its recent segregationist past by showing how ethnic cleansing was challenged bosnia

the war in bosnia and herzegovina was characterized by human rights abuses on a scale not seen in europe since the second world war it is not then surprising that the dayton agreement together with related texts and agreements lays out the most ambitious human rights protection regime ever included within an international peace settlement the peace agreement imports myriad substantive guarantees for the protection of every category of human rights including some through a novel application of the european convention on human rights the provisions are accompanied by a highly complex system for both monitoring and enforcement of their implementation these enforcement procedures contain temporary elements such as international field operations and an array of tribunals and institutions intended to be permanent the present volume is a contribution to the process of interpreting and assessing the post dayton human rights regime in bosnia and herzegovina the analysis of the contributing human rights scholars and practitioners is located within the contexts of the immediate reality and needs of bosnia and herzegovina and the systemic significance of the peace agreement for other post conflict and complex emergency situations worldwide
