tolerance and co existence are both great in fact they are necessary if we are to live together in peace without hating each other or physically harming each other over differences in race culture sexual orientation political views and religious beliefs we must have tolerance however we must also recognize that every belief can t be equally valid if two beliefs directly contradict each other both of them cannot be true no matter how tolerant we become this means it is false to say that every religion is true or that every religion leads to god when people make such claims they show that they have not taken the time to study the world s religions because a brief reading of the sacred texts of only a handful of religions quickly reveals contradictions on the most fundamental levels religious contradictions reincarnation hinduism and buddhism contradicts the belief that this is your only life before eternity christianity judaism and islam salvation from sin christianity contradicts the belief that there is no sin to be saved from but simply pain that can be escaped through

enlightenment buddhism jesus christ is the incarnate son of god christianity contradicts the teaching that he is just a prophet islam or that he was a false prophet judaism in light of these contradictions alone all religions can't be true they could all be false but they can't all be true are any of them true this is the most important question anyone can ask recognize religious contradictions embrace them test them seek the truth contradictmovement.org
